## MIRROR BALL

### **Mounting the Colour Wheel**

- Unscrew the nut and the first tooth ring from the fixation axle of the colour wheel motor.
- Remove the foil of the colour wheel.
- Slip the colour wheel onto the fixation axle of the motor
- Slip the tooth ring first and then the nut onto the fixation axle.
- Fasten the nut without damaging the colour wheel.
- Fix the colour wheel with motor via the fixation on the motor to the pin spot housing and tighten the screw.

### **Rigging**

- Mount the Pin spot with the mounting-bracket to your trussing system using an appropriate clamp. The hole in the mounting bracket has a die
